Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

In regards to the previous election/restriction, the Examiner's intentions were to separate the two distinct invention in the patent, explained as Group I and Group II below. However, the requirement based upon the election using drawings was not clear. The Examiner will explain the restriction below and require on the two sets below to be elected with or without traverse.

Election/Restrictions

This application contains claims directed to the following patentably distinct species: the species of claims 1-3, 5-7, 9-13, 15-17, 19-23, 25-27, and 29-39 (Group I, corresponding to claims 1, 11, and 21 and their dependents) and the species of claims 4, 14 and 24 (Group II) . The species are independent or distinct because Group I is directed towards a method/medium with instructions/system for identifying a plurality of suppliers on a peripheral device for at least one consumable and to indicate one of the suppliers for submitting an order based upon the received information. Group II is directed towards a similar system, however, this system requests with the peripheral device only at least one supplier, and, in addition, retrieves information regarding the peripheral device, and the identification of the supplier is based upon the location of the peripheral device.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).
